FROM THE DESK OF DOYIN OLUNTONA

Mzuzah!

Wealth creation in the most ethical, beautiful, innovative and sustaining way that engages the support of the creator of the universe.

It is with great pleasure that we welcome you to the “Mzuzah Convergence 2018, Lagos Nigeria”; we are excited about your participation. Several attempts have been made to diagnose and treat Africa’s issues, however none has taken the pains to effectively engage the real owners of Africa, those whose futures and legacies are directly affected by the flailing state of the continent. Mzuzah has created this discourse platform to do just that and our heartfelt desire is to help you and your organizations reach its full potential and fulfill the God-given destiny ordained for you. We encourage you to look for every opportunity to connect, start collaborative discussions and follow through on what you learn here. Go back and use more sustainable approaches to your life and work Inside this booklet you will find words to help along your journey to success. As you meditate on and speak these words over your work and business, remember that the creator of the universe has great things in store for you and believe that this will be the beginning of the very best years for your life and business. Making Africa and other nations great again!

Working towards your sustainable success, Mzuzah, Co-Founder

Energize

During this Energize session allow us to add a new dimension to your success and “speak life over you” and your business. Our prayer is that you grow, mature into the sustainable marketplace leader God created you to be.

We ask that you...

Give it everything you have, heart and soul. Make sure you carry out the revelation that commanded you, every bit of it. Don't get off track, either left or right, so as to make sure you get to where you're going. And don't for a minute let this Book of The Revelation be out of mind. Ponder and meditate on it day and night, making sure you practice everything written in it. Then you'll get where you're going; then you'll succeed.²

Words kill, words give life; they're either poison or fruit—you choose³

We encourage you today to choose and speak life over yourself, family, work & community.

SUSTAINABLE LIFE!

Sustainable living words

The favor of the creator of the earth surrounds me and precedes me.

For You, O LORD, will bless the righteous; with favor you will surround him as with a shield.⁴
He who earnestly seeks good finds favor, but trouble will come to him who seeks evil.⁵

The blessings of the creator of the universe are chasing me and overtaking me.

Whatever I set my hand to do prospers. I am like a tree planted by the rivers of water that brings forth its fruit in its season, whose leaf also shall not wither; and whatever I do prospers.⁶

My heavenly father gives me power to get wealth

And you shall remember the LORD your God, for it is He who gives you power to get wealth that he may establish His covenant which He swore to your fathers, as it is this day.⁷

Wisdom Speaks: Search it out

I love those who love me, and those who seek me diligently will find me. Riches and honor are with me, enduring riches and righteousness. My fruit is better than gold, yes, than fine gold, and my revenue than choice silver. I traverse the way of righteousness, In the midst of the paths of justice. That I may cause those who love me to inherit wealth, that I may fill their treasuries.⁸

Our Collective Responsibility to Sustain What We've Been Given

Sustainability begins with YOU! A collection of YOU's can change the world for worse or for better, one small act, can have far reaching impact. Its time! Let's set new trends, new standards, let's start now to foster Sustainability in our lives and communities. All around us, we have critical social, environmental and economic issues that can only be effectively addressed when we take on the responsibility and harness our collective power to make lasting changes. Never underestimate the power of a small group of people to change the world!

Sustainable development is a dynamic process which enables people to realize their potential and improve their quality of life in ways which simultaneously protect and enhance the earth's life support systems"⁹
