THE HEAVENS DECLARE THE GLORY OF GOD!

¹⁻² God's glory is on tour in the skies,
God-craft on exhibit across the horizon.
Madame Day holds classes every morning,
Professor Night lectures each evening.

³⁻⁴ Their words aren't heard,
their voices aren't recorded,
But their silence fills the earth:
unspoken truth is spoken everywhere.

⁴⁻⁵ God makes a huge dome
for the sun a superdome!
The morning sun's a new husband
leaping from his honeymoon bed,
The daybreaking sun an athlete
racing to the tape.

⁶ That's how God's Word vaults across the skies
from sunrise to sunset,
Melting ice, scorching deserts,
warming hearts to faith.

⁷⁻⁹ The revelation of GOD is whole
and pulls our lives together.
The signposts of GOD are clear
and point out the right road.
The life-maps of GOD are right,
showing the way to joy.
The directions of GOD are plain
and easy on the eyes.

GOD's reputation is twenty-four-carat gold,
with a lifetime guarantee.
The decisions of GOD are accurate
down to the nth degree.

¹⁰ God's Word is better than a diamond,
better than a diamond set between emeralds.
You'll like it better than strawberries in spring,
better than red, ripe strawberries.

MZUZAH AFRICA!

"Mzuzah" creating wealth in the most ethical, beautiful, innovative and sustaining way that engages the support of the creator of the universe.

In partnership with several leading institutions across several countries, the Mizuzah Africa "Convergence" seeks to explore ways of "Building a Realistic Intersection between Sustainability, Social /Environmental Impact and Economic Empowerment"

What goes through YOUR mind when you hear the word "Africa"? For most people Africa is synonymous with poverty, lack of good leadership, inadequate education, and poor understanding of the world. Is Africa really poor or is there something else going on? Why is it that Africa seems to be locked into a cycle of dysfunction? Leading institutions have failed in effectively addressing the issues. Why? Could it be that it's a mistake to impose solutions? Or a bigger mistake to prop up programs, terms, metrics and other ideologies without conversations that effectively engage the real owners of the continent, those who are directly impacted by issues on ground?

Pioneering a new era in the proper diagnosis and solution to an age old problem The Convergence on Sustainability has emerged with the understanding that only sustainable thinking leaders are capable of providing the most appropriate solutions to the present problems of African societies. By engaging the current and next generation of leaders, we expect to develop individuals whose mindsets are hardwired to consider the implications of their actions on the well-being of their ecosystem, which includes their own personal economic well-being and their community and environmental well-being.

These dialogues are essential to inspiring and ensuring a transformational movement on the African continent. Only through the power of knowledge dissemination, effective engagement and collective dialogue can we ensure the development of right thinking individuals leading the transformational movement on the African continent.

Mzuzah Africa invites delegates to explore MZUZAH, the inspiration to build wealth on the African continent in way that would benefit present without damaging the future leaving positive lasting legacies.

Olananke Banjo, Creative Director | Cyrus45 Factory, Lagos, Nigeria

A graduate of Foreign Languages (French) from the prestigious Obafemi Awolowo University in Ile-Ife Osun State, Olananke always stood out as an artistic child with an unmitigated interest in literature and fine arts. Olananke developed an interest in the Arts at the early age of 9. In 2015, she explored her love for the Arts by becoming part of a dynamic drama group called Creative X where she starred in productions such as The Confab, Blue Blood, Feast of Empty Plates and Just Because. However, Olananke took her passion for all things art-related in 2016 to another level she developed an idea to recycle/upcycle tyres into artsy and ultra-modern furniture. Today, Olananke has set up a creative outfit, Cyrus45 Factory, which focuses on not only recycling but also producing bespoke and ultra-modern furniture and products for the art savvy Nigerian.

About Cyrus45 Factory:

For us at Cyrus45 factory, we believe that in order to achieve a sustainable model in recycling and green living in our community, we must first educate ourselves on the reason why we need to recycle as well as the benefits that come with it. A paradigm shift from our business as usual attitude i.e. if it is not affecting me now then it's not my business. It can only be sustainable when we work together, this is why we look to partner with other organizations that share our values and goals. Every tyre we have up cycled was taken off the street, this is what we call our "value creation – waste reduction" principle. This serves our business of creating artsy and functional furniture for the art savvy Nigerian as well as cleaning up the environment. As the mindset of our people change towards a greener environment, it eventually becomes a culture and thus creates a healthy environment that encourages any one to start up a business in recycling.
